

## Sports Premium Review of Spending 2013/2014

This year, teachers have had the opportunity to work alongside coaches from Future Stars in the delivery of multi-sports, gym and Tag rugby. Each teacher has received CPD with a coach for two terms. The impact of this on the children has been wonderful; the children have received high quality PE lessons as well as having good male role models. Teachers' confidence in teaching PE has improved and each one has learned new games and activities to engage all of the children during their lessons. This has been followed up in other terms by the teachers.

Money from Sports Premium has also been used to release the PE coordinator to take the children to matches and tournaments where they have competed against schools in our own cluster group as well as schools in North Somerset. We have had another very successful year with many teams reaching the North Somerset finals. In football we were the finalist in the North Somerset Football finals. Our Year 5 cricket team represented North Somerset in the County finals coming 4<sup>th</sup> and Year 6 have become North Somerset Champions and represented North Somerset in the County finals held at the County Ground in Taunton. In mini-tennis and tri-golf we had children representing North Somerset in Level 3 competition at the Youth Games at Bath University. Will Tothill won a gold medal in the North Somerset Quad Kids event beating over 80 boys. Participation has been very high and many children from Years 3-6 have represented the school.

We have also used the money to belong to the North Somerset PE Association which gives us access to competition and events and CPD for staff. Mrs Whitehouse has attended training in delivery competition and Miss Matthews has received basketball coaching. In term 6 of 2014-2015 Golden Valley Archers will be coming into school to deliver archery to children from years 1-6. By belonging to this partnership we also have access to be able to network with PE colleagues on the delivery of PE and assessment.

In our Churchill Cluster - Paul Mason continues to work with children throughout the school. This year, together we have focused on Gifted and Talented, Year 6 transition and Outdoor Activities. We had also focused on children who do not regularly access physical activities outside of school and one group from years 4-6 had the opportunity to go to the gym at Tone Leisure for two morning to experience sport that moves away from the team element.

This year the Sports Premium money has also funded swimming lessons for years 3 and 4.
